March 30, 2007

Dear PHADA Member:

I am pleased to inform you that PHADA and HD Supply Facilities Maintenance recently renewed their alliance, which provides significant economic benefits to PHADA members. As you know, Home Depot is the leading supplier of repair and replacement products to owners and managers of multi-housing, lodging, and commercial properties.

The two-year renewal will benefit PHADA members in several ways. All PHADA member properties, for example, will be guaranteed the company's lowest published, maximum discount price on any item ordered from Home Depot's national catalog. The company's lowest published catalog price represents an average 14% discount from their first level pricing. The company has also committed to work with PHADA members on remodeling projects, with discounts available below their best book price. HD Supply Facilities Maintenance has waived its usual requirements for PHADA members to submit individual account applications, and has opened a net 30-day account for members that do not already have an account with HD Supply Facilities Maintenance. Orders can be placed by telephone, fax and through the Internet.

PHADA members can contact the HD Supply Facilities Maintenance at (800) 798-8809 for more information, to establish an account, or to change an existing account to participate in the PHADA-Home Depot discount program. **Please be sure to mention your membership in PHADA to reap the special benefits.** Thank you for your interest.

Sincerely,

Timothy G. Kaiser
Executive Director
