CORONAVIRUS RESPONSE PLAN
MARCH 2020

The Housing Authority of the City of Madera is monitoring the current viral outbreak formally known as the Coronavirus or CoVid 19. This is a constantly changing situation, we are taking this very seriously and have developed a Response Plan should this health crisis impact our delivery of services to our residents and participants of our housing programs. There are many sources of factual information concerning the virus and can be found at these websites:

It is human nature during times like this to want to be overly cautious and react in a manner we feel is justified to protect ourselves and our families. We should be cautious and take prudent measures to protect ourselves, our residents and those we work with every day. This plan provides guidance as to how the BHA can continue our work while be cautious and respectful of this serious health issue facing our community. Our goal will be to limit the exposure of the virus to our employees and residents and to prevent the further spread of the virus.
